

**REGULATION
FOR CREDIT RECOGNITION
IN MASTER'S DEGREE PROGRAMS**

REGULATION FOR CREDIT RECOGNITION IN MASTER'S DEGREE PROGRAMS

This regulation establishes the procedure, deadlines and conditions to be applied for recognizing credits in Universidad Europea de Canarias Graduate Degree programs.

Article 1. DEFINITIONS

- **Master's Degree:** Official university education regulated by current legislation for the purpose of acquiring advanced training, whether specialized or multidisciplinary, aimed at academic or professional specialization, or to promote the starting of research tasks.
- **Source degree program:** the program in which the credits or subjects to be recognized were studied.
- **Destination degree program:** the program for which credit or subject recognition is requested.
- **Recognition:** acceptance by Universidad Europea de Canarias of the credits that have been obtained in official or unofficial university programs, at the same or another university, to count in other programs in order to obtain an accredited degree at Universidad Europea de Canarias. Work and professional experience accreditation may be recognized under current legislation and according to the provisions of this regulation.
- **Validation/Recognition Orientation:** document used by the competent body to respond to the application submitted by the student. This document includes an initial evaluation of the credits that may be recognized and, where appropriate, the modules, coursework or subjects that must be studied, and those that need not be studied as the skills covered in these subjects/modules are considered to have been acquired in the recognized credits. The Recognition/Validation Orientation is provisional and informative; it has no official validity and is subject to submission of the relevant official documentation and compliance with the applicable legal requirements.
- **Validation/Recognition Resolution:** document used by the competent body to accredit the recognized modules, coursework or subjects, which therefore do not need to be taken.

Article 2. OFFICIAL PROCEDURE AND DEADLINES

1. The Master's Degree program credit recognition application must be processed using the *Online Application* available at [Convalidación de asignaturas y Traslados de Expediente | UE \(universidadeuropea.com\)](http://convalidaciondeasignaturas.ytrasladosdeexpediente.ue.com), providing all the required documentation within the official deadlines set by the Universidad Europea de Canarias.

2. The recognition application must be submitted during the Universidad Europea de Canarias Master's Degree admission process, or failing this, within 30 days from the program start date.

In the case of late arrivals, the recognition application must be submitted during the admissions process, or failing this, within 30 days from the formalization of enrollment.

For Master's Degrees lasting more than one year or extended courses, the recognition application may be submitted within 30 days from the teaching start date of each academic year.

A second application period will be opened exclusively for cases of work experience accumulated during the period of the Master's Degree on which the student is enrolled. In these cases the application must be made during the last 30 days before the program end date.

3. The recognition application must be accompanied by the following documentation:
 - If the student has no prior studies subject to recognition:
 - Personal academic certificate of the degree of origin

- Curriculum stamped by the Registrar's Office of the institution of origin
 - Syllabuses from the subjects taken and/or enrolled in for the source degree program
 - Accredited degree translated into Spanish (only in the case of overseas graduates with original documentation in a language other than Spanish or English)
 - Translated official accreditation certificate of the source University and degree program (only for students with overseas studies and/or degrees, pursuant to the provisions of Article 2.6).
 - If applying for credit for prior work experience, the following must be provided:
 - Employment record certificate
 - Curriculum Vitae
 - Company certificate – only when the duties performed in the company must be accredited, or in the case of students with international professional experience who cannot provide an employment record certificate.
 - Sworn Statement indicating the veracity of the information provided (Annex I)
4. The university may require any additional documentation from the student considered necessary to study the validation/recognition, as well as original documentation or a certified copy.
 5. If the source degree was studied at the Universidad Europea de Canarias, the documentation indicated in the first three points need not be submitted.
 6. If the source studies were completed abroad, the documents submitted must be duly authenticated, provided they have not been issued by an EU country. In this case, the stamp of the University of origin is sufficient.
 7. If the source studies or professional experience took place abroad, the documents submitted must be translated into Spanish provided the originals are in a language other than Spanish or English.
 8. After sending the duly completed recognition application and the minimum required documentation, the student will receive an initial Recognition/Validation Orientation by email within 8 working days. The Recognition/Validation Orientation is provisional; it has no official validity and is subject to submission of the official documentation indicated above, as well as the approval of the Faculty or School Dean or Director and compliance with the applicable legal requirements.
 9. If the student does not agree with the Recognition/Validation Orientation received, they may request its revision via the Online Application platform used previously. This revision request must be sent within 10 days from the time the Recognition/Validation Orientation was sent, and it must be accompanied by additional documentation or proof to justify the revision. After this deadline, it is understood that the student agrees with the Recognition/Validation Orientation and no subsequent revisions may be requested. Only one revision may be requested.
 10. The provisional orientation will become final once indicated by the Validation Committee of the corresponding Faculty/School, and with the approval of the Faculty or School Dean or Director, after the student has submitted all the required official documentation.
 11. The period in which the provisional orientation will become final is 15 days from the time all the official documentation is submitted by the student. The applicant will be notified of the Final Validation/Recognition Resolution by email sent to the address provided in the application; from this moment the recognition will be made effective on the student's transcript.
 12. The student has a period of one month from receipt of the Final Validation/Recognition Resolution to appeal if they consider that there is any error in the grades appearing in the Final Resolution, or that there is any discrepancy between the recognitions that appeared in the provisional orientation and those that appear in the Final Validation/Recognition Resolution. After this period the resolution will become final and no appeal may be submitted. If the student has applied for their degree and paid the

relevant fees, it shall be considered that they agree with their transcript and no application for changes may be submitted.

13. After the period for appealing the Final Validation/Recognition Resolution, the student may not reapply for recognition of the same degree program applied for the first time. Only in the case of Master's Degrees lasting more than one year or extended courses, and in the case of legal simultaneity of studies or professional experience acquired after the date of the first application, meaning that the student will have additional documentation to that provided in the first application, may the student reapply for recognition of the same degree program. The Faculty/School Dean/Director must decide whether to accept the application.
14. If, during the official appeal period, the student requests a repeal of the recognition of any of the subjects indicated in the Final Validation/Recognition Resolution in order to study them, they must submit the relevant repeal document (Annex II to this Regulation).
15. The recognized subjects or modules will be considered passed for all effects and purposes and, therefore, no further assessment will be required. The subjects or modules which have been recognized will appear as such with this denomination and with the corresponding ECTS credits on the student's transcript, and they will have the points equivalent of the grade obtained in the source subject. If the official degrees or academic certificates provided by the student only express an overall average grade, this average grade will be applied to each of the subjects or modules recognized. If the relevant degree does not express an average grade and there is no other document to accredit a grade, the grade for each subject will be 5 (five).
16. For the recognition and validation of qualifications from foreign universities to the Spanish system, the scales and tables of equivalence of average marks for foreign university studies and degrees published in the Directorate General for University Policy's Resolution of 21 March 2016, the Directorate General for University Policy's Resolution of 21 July 2016, and the General Secretariat for Universities' Resolution of 18 September 2017, will be applied. These Resolutions and their corresponding Annexes are published on the website of the corresponding Ministry, which is currently:
17. <http://www.educacionyfp.gob.es/eu/servicios-al-ciudadano/catalogo/gestion-titulos/estudios-universitarios/titulos-extranjeros/equivalencia-notas-medias.html>
18. The recognition of all enrolled students who do not submit all the required official documentation before the 15th of the month after their program start date will be rejected due to lack of documentation, and it will be understood that the student withdraws their application. For late arrivals, the deadline will be the 15th day of the month following the formalization of their enrollment. In the case of students with overseas studies, submitting proof of having requested the appropriate documentation during this period will be accepted as initial documentation to maintain the application process open. They will have an additional period of 30 days to submit the official documentation.

Article 3. CONDITIONS FOR CREDIT RECOGNITION

1. The following may be provided as merits, and therefore considered for recognition:
 - Subjects completed in official university studies, both in Spain and overseas, whose content, skills and workload coincide with those of the subject to be recognized. Except in exceptional cases, only graduate degree subjects may be recognized.
 - Subjects completed in unofficial university studies (private degrees issued by official universities), both in Spain and overseas. The subjects to be recognized must have a similar workload, content and skills to the subjects completed.

According to current legislation, up to a maximum of 15% of the total credits for a degree program may be recognized, combining private university degrees and professional experience, except for degree programs with an Official Description that establishes a lower maximum.

Notwithstanding the above, credits from private degrees may, in exceptional cases, be recognized as a higher percentage than indicated in the above paragraph or, where appropriate, be totally recognized, as long as the private degree has been discontinued and replaced by an accredited degree. For this purpose, the accredited degree official description must indicate this, as well as the curricular design relating to the private degree, and the credit recognition proposal.

- Accredited professional experience, provided it was in the professional field of the degree program, and the activity carried out covers the skills of the subjects or modules to be recognized.

Only professional experience accumulated before the start date of the Master's Degree for which the student is applying for admission and/or is enrolled in may be considered for recognition. Professional experience accumulated after the start date may only be exceptionally considered for Master's Degrees lasting more than one year, and/or in the case of students who do not have professional experience to be recognized before the start of the program, as long as this experience began before the start of the internship for which recognition is requested.

According to current legislation, in general up to a maximum of 15% of the total credits for a degree program may be recognized, combining private university degrees and professional experience, except for degree programs with an Official Description that establishes a different maximum, in line with current legislation.

2. In no case may credits for be recognized for Master's Theses.
3. Applications for the recognition of subjects or modules already graded on the student's transcript at the time of application will not be accepted.
4. Only in the exceptional cases described in Article 2, will recognition be accepted more than 30 days after the start of the subject. For late arrivals, the deadline will be 30 days from the formalization of enrollment. For Master's Degrees lasting more than one year or extended courses, the recognition application may be submitted within 30 days from the teaching start date of each academic year.
5. Subjects recognized in the source degree program transcript will not be recognized. In this case, the documentation and official curriculum of the initial degree program from which the recognition was obtained must be submitted; these will be used to study the UEV recognition.
6. Subjects taken as an exchange student (Erasmus or others) and reflected in the academic transcript of the destination university will not be recognized. In these cases, subjects recognized by the source university after completing the exchange will be subject to recognition.
7. Extracurricular internships will not be recognized as professional experience.
8. Recognition applications will not be accepted once the program in which the student was enrolled and for which they request recognition has been completed.

ADDITIONAL PROVISIONS

1. Repealing the recognition of any subject or module, according to the procedure and deadlines indicated in section 1 of this Regulation, means that the student may not reapply for the recognition repealed.
2. The general and specific criteria in force at the university and each Faculty/School will be used to recognize subjects or modules and professional experience; these may vary each academic year according to current legislation.
3. *Recognition/Validation Orientations* may vary from one academic year to the next, according to the criteria and legislation in force at the time of application.
4. Subjects or modules will not be partially recognized.
5. Recognition/Validation Orientations, and therefore the applicable recognitions, may vary between the

different Universidad Europea universities (Universidad Europea Madrid, Universidad Europea Canarias, Universidad Europea Canarias), depending on the approved curricula in force.

6. Credits that are not recognized, and which therefore the student must study and pass to obtain the Master's Degree for which they request recognition, must add up to at least 40% of all credits included in the relevant curriculum, except for Double Degrees, where the number of credits to be studied will be determined by the provisions of the relevant agreement.
7. Recognition requests will not be accepted if:
 - They are performed outside of the official channels established by the university in this document.
 - They do not comply with the deadlines and situations specified herein.
8. Validations will not be added to the transcript of students not up to date on payments.

FINAL PROVISION

The stipulations within these Regulations will take effect from the 2021-22 academic year onwards.

ANNEX I

SWORN STATEMENT

Mr./Ms. of _____ nationality
_____, with Passport/NIE/NIF number
_____, hereby declares that the details in the curriculum vitae provided in order
to evaluate the recognition for professional experience are true.

In witness whereof, for all pertinent purposes, I hereby sign this statement.

Signed:

Canarias, _____, _____ 20__
