FREE SUMMARY OF THE CURRICULUM

I have worked for several years in various psychology centers, focusing primarily on child and adolescent populations.

I started at Ortofon, a center for speech therapy, clinical psychology, and psychopedagogy, where I mainly worked with adult patients, many of whom suffered from anxiety and depression. However, with the transition to the Alberto Soler Psychology Center, I established myself in the specialization I currently practice in my private practice: working with children and adolescents with emotional and behavioral disorders.

Assistant Doctor Professor	Agencia Valenciana de Evaluación y Prospectiva	2023
PhD in Psychology and Technology for the Promotion of Health and Well-being	Universitat Jaume I	2022
Master Degree in Family Mediation and Counselling	Universitat Jaume I	2016
Graduate in Psychology	Universidad Jaume I	2015

FREE SUMMARY OF THE CURRICULUM

Graduated in Psychology from the University Jaime I of Spain in 2015, completed a Master's in Family Intervention and Mediation at the University Jaime I in 2016, and earned a Ph.D. in Psychology with International Mention in 2022 with the thesis titled "The Impact of Confinement on Mood and Behavior Using Time Series: Anxiety, Depression, and Distress."

Patricia was part of the High Academic Achievement Group of her Psychology class. Subsequently, she received a scholarship to pursue her Psychology career through an exchange program in North America, specifically at Shawnee State University (Ohio). Since 2016, she has been working as a legal and forensic psychologist in a private center, handling cases related to family, childhood, and adolescence.

From 2017 to 2019, she worked as an associate professor in the Department of Evolutionary, Educational, Social, and Methodological Psychology at Universitat Jaume I (UJI) in Castellón. In 2018, she completed her first two-month doctoral stay at the University of California (Davis), and in 2021, she conducted her second one-and-a-half-month doctoral research stay at the same university.

Since 2018, Patricia has been a lecturer at the International University of Valencia, previously coordinating the Master's in Intervention and Prevention of Behavioral Problems in School. From June 2022 to September 2023, she served as the director of the Master's in Forensic Psychology. In September 2023, she took on a new challenge as a professor at the European University of Valencia, within the English group of the Psychology Degree. She is a member of the BE Health Lab research group at the International University of Valencia and an aspiring researcher in the fields of methodology, overall well-being, public health, and satisfaction in couples.

Regarding research, she currently employs an intensive methodology in longitudinal data and time series, delving into the realms of Moderation and Mediation. Her research lines are related to mood, violence, bullying, and academic performance. She is a member of the Young Researchers Group of the Spanish Association of Methodology of Behavioral Sciences.

FREE SUMMARY OF THE CURRICULUM

During the last few years, I have been pursuing my PhD in neurosciences in Dr. Hipolito's laboratory. During this period, I have focused on the study of pain-induced negative affective states, and how this phenomenon may affect the development and/or relapse to alcohol. For this I have worked both with animal models and with patients from chronic pain units. On the other hand, during this period I did a stay in the laboratory of Dr. Morón, where I learned to program in Arduino and Adafruit language, use electrophysiological, stereotaxic and optogenetic techniques.

In addition, I have also worked my skills as a teacher directing several TFG and TFM during my PhD.

Outside the research field, I have worked for two short periods of time, both with children within the autistic spectrum, as well as with patients suffering brain damage after a stroke to design and implement interventions to promote their rehabilitation.

FREE SUMMARY OF THE CURRICULUM

Among the most relevant merits of my professional experience, I would like to highlight the following:

In the field of teaching: Classes "Therapeutic Intervention with a Large Single-Parent Family" in the Unit of Intervention in Family and Community Systems, Master's in Psychology, Faculty of Psychology at the University of Lisbon; Classes "Scientific Writing" in the Unit of Research Methods in Psychology: Advanced Topics, Master's in Psychology, Faculty of Psychology at the University of Lisbon; Classes "Community Psychology" in the Unit of Clinical Psychology and Health, Master's in Psychology, Faculty of Psychology at the University of Lisbon. Participation in academic activities: Support in data collection for master's theses: Collaboration in four master's theses of the Systemic Psychology core at the Faculty of Psychology of the University of Lisbon, involving data collection for the protocol of the normative sample of this doctoral study, as well as formal support for its execution when necessary (2015 to 2018), Activity titled "Unraveling the Mysteries of Psychologist Intervention with Families and Communities" as part of the ULisboa Summer Program (2016 and 2017). Participation in the doctoral discussion group called "How to Research?" (CSI) - (monthly, 2016-2018), serving as intervention meetings. Additionally, I work in the clinical area, specializing in systemic and cognitive-behavioral approaches, in various clinics affiliated with Portuguese universities.
